

Hur gör jag för att på bästa sätt ordinera exempelvis Valaciclovir som skall tas 1x2 i 3-5 dagar vb (tillsvidare).

Svar: En eo ordination behöver göras.

The screenshot shows a digital prescription form. At the top, there's a dropdown menu set to 'Tablett' and a text field containing 'leo'. Below this, a 'Dosering:' label is followed by a text field containing '1x2 i 3-5 dagar'. Further down, a 'Start:' label is followed by a date and time selector showing '2025-03-19' and '10:09'. A 'Slut:' label is followed by a dropdown menu set to 'Tills vidare'. A right-pointing arrow is visible to the right of the 'Start:' and 'Slut:' fields.

Så här ser det ut i recept/Utkorgen

The screenshot shows a window titled 'Patientinstruktion:'. It contains a list of instructions: '1x2 i 3-5 dagar tills vidare', 'Inkludera ordinationstid', 'oralt', and 'Mot bältros'. Each instruction is preceded by a checkmark icon. At the bottom left, there's a link that says 'Ändra ordinationen'. At the bottom right, it says '208 tecken kvar'.
